ze@zecipriano.com | (+351) 91 730 66 56 | zecipriano.com | linkedin.com/in/zecipriano | github.com/zecipriano

PROFESSIONAL EXPERIENCE

PHP Developer – Digital Manager Guru
Santarém (Remote), September 2023 – present

Backend development with PHP and Laravel. REST APIs, OAuth.

Web Developer – Independent Worker
Aguim, February 2010 – September 2023

Web application development for own projects. Usually using **PHP**, with the **Laravel** framework, and a **PostgreSQL** database. In this chapter, highlight to Nunti, a notifications service, via SMS, for schools.

Development of institutional websites and online shops for clients, usually using the **WordPress** CMS and, for online shops, the **WooCommerce** plugin.

Web Developer – Simpiens
Curia, May 2013 – July 2014

Development of a video courses platform, which allowed (in a marketplace format) the sale of courses by trainers and their consumption by students.

As the only programmer in the team (in a startup phase), I was responsible for all the development and design. Application developed in **PHP**, with the **CakePHP** framework and a **MySQL** database.

Informatics Tutor – Freelancer
Coimbra, 2009 – 2010

Informatics tutoring, namely programming and SQL, to college students.
